

M SAMPREETH

USN: 3BR25CD067 · CSE – Data Science · your.email@gmail.com · github.com/yourusername · [LinkedIn](#)
Computer Science and Engineering (Data Science) student with a strong interest in software development, data science, artificial intelligence, and interactive application development. Interested in building practical solutions using programming, data analysis, and modern software tools. Currently pursuing a B.E. with a CGPA of **8.1/10**.

Technical Skills

Programming — Python, C, C++, Java, SQL

Data Science — NumPy, Pandas, Matplotlib, Data Analysis, Exploratory Data Analysis

Web Technologies — HTML, CSS, JavaScript

Database — MySQL, SQL

Tools — Git, GitHub, VS Code, Jupyter Notebook, LaTeX

Core Concepts — Data Structures, Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Projects

Japanese-Themed 2D Adventure Game — HTML, CSS, JavaScript

- Developed a browser-based 2D adventure/platform game using HTML, CSS, and JavaScript with a Japanese-themed visual environment.
- Implemented player movement, jumping physics, collision detection, collectibles, enemies, score tracking, and win/lose states.
- Designed responsive keyboard and mobile touch controls for an improved gameplay experience.

Student Data Analysis Dashboard — Python, Pandas, Matplotlib

- Developed a data analysis project to process and visualize student-related datasets using Python.
- Used Pandas for data cleaning, transformation, filtering, and statistical analysis.
- Created visualizations using Matplotlib to identify trends, comparisons, and performance patterns.

Personal Portfolio Website — HTML, CSS, JavaScript

- Created a responsive personal portfolio website to showcase academic achievements, technical skills, and projects.
- Implemented structured navigation and responsive layouts for desktop and mobile devices.

Education

B.E. in Computer Science and Engineering – Data Science 2025 — Present

Ballari Institute of Technology and Management, Karnataka **CGPA: 8.1/10**

Pre-University / Class XII 2025

BPSC Pu College, Ballari **Percentage: 81.2%**

Class X 2023

Sri Chaitanya Techno School **Percentage: 63.7%**

Core Competencies

Problem Solving — Analytical thinking, debugging, algorithmic problem solving, and practical implementation.

Data Analysis — Data cleaning, exploratory analysis, visualization, and interpretation of datasets.

Software Development — Building responsive applications, writing maintainable code, and testing functionality.

Learning Ability — Quick learner with an interest in emerging technologies, AI, data science, and software development.

Teamwork — Collaboration, communication, task coordination, and project-based development.

Certifications & Learning

Python Programming — Completed coursework and practical projects covering Python fundamentals, functions, data structures, and object-oriented programming.

Data Science Fundamentals — Hands-on learning in Python, Pandas, NumPy, data visualization, and exploratory data analysis.

Web Development — Practical experience with HTML, CSS, JavaScript, and browser-based application development.

Achievements & Activities

- Developed and deployed independent software projects as part of academic and personal learning.
- Actively exploring Data Science, Artificial Intelligence, Web Development, and Software Engineering.
- Practicing programming and problem-solving to strengthen core computer science fundamentals.

Areas of Interest

Data Science · Artificial Intelligence · Machine Learning · Software Development · Web Development · Data Visualization

Additional Information

USN — 3BR25CD067

Branch — Computer Science and Engineering – Data Science

Current CGPA — 8.1/10

Languages — English, Kannada, Hindi
